DARROW IS DENOUNCED

Argument of Prosecution in Bribery Case Begins-Objections

Los Angeles, Aug. 12.—Interrupted frequently by objections on the part of the defense attorneys, Assistant District Attorney W. Joseph Ford began today the opening argument to the jury in the bribery trial of Clarence S. Darrow. Opening with a comparison of the accused and Francis Bacon as a man whose "sentiments were noble—his practices ignoble," Ford said that history was filled with such men. Among the "men of noble character and great reputation who have committed crimes," he named Judas Iscariot and Benedict Arnold.

The first interruption was that of Mr. Darrow, who excepted to Ford's designation of former United States Senator W. E. Mason as "Lorraine's seat mate." Mason was one of Darrow's character witnesses.

Darrow and Attorney A. H. Appel were both on their feet with objections when Ford denounced the defendant as responsible indirectly for the blowing up of the Times by "teaching there is no such thing as crime."

Appel protested that the prosecutor was going outside the evidence and Judge Hutton warned the speaker to desist.

Going into the history of the McNamara case, Ford defended what he called the "stool pigeon system" as a necessity in enforcing the law, and denounced Darrow's avowed belief in the right to spy likewise into the secrets of the prosecution.

RUMORS AS TO GOULD ROAD

Convinced that rumors regarding the partial abandonment of Ogden by the Denver & Rio Grande were unfounded, President H. M. Rowe addressed a communication on the subject to Vice-President E. L. Brown which drew forth a denial from that official.

Notwithstanding this denial, however, it is declared by persons who are familiar with the conditions, that while the company will continue to run its trains on the same or similar schedules, the crews will be obliged to move with their families to Salt Lake. It is asserted that a number of men have already moved to Salt Lake in order to meet the new regulations.

The engines are cut out at Salt Lake and another crew furnished to bring the trains to Ogden and back. While an engineer is allowed, possibly, to continue his run on another engine, it is obvious that to maintain his repairs he must turn in his reports at Salt Lake, thus handicapping himself to such an extent that it is preposterous to end his run in Salt Lake and consequently live there.

The communication referred to between Mr. Rowe and Mr. Brown follows:

"Ogden, Utah, August 11, 1912.
"Mr. E. L. Brown, V. P. D. & R. G. R. R., Denver, Colo.: There are persistent rumors here again that you are going to move your train crews from Ogden, and that you have already moved twenty men from here; that westbound crews are to be cut out at Salt Lake City, compelling the removal from Ogden of

about fifty men with their families, including coal shovellers and machinists. We are keeping the newspapers from publishing these rumors until set at rest by you. Please advise us regarding above. (Signed)
H. M. ROWE, President
"Pueblo, Colo., Aug. 12, 1912.
"H. M. Rowe, President Weber Club, Ogden Utah: Your wire yesterday, there is nothing in rumors you mention that will in any way effect Ogden. Our train and engine crews will continue to run through that point. We will also continue forces required to take care of our engines. (Signed)
"E. L. BROWN."

SAYS MAIL WAS RIFLED

La Follette Charges Postal Department With Espionage

Washington, Aug. 12.—Senator La Follette today charged officials of the postal department with rifling his mail in an attempt to learn the results of an investigation he was making into conditions in the hospital service. He showed the senate a bundle of letters which he declared had been opened before he received them.

"My mail was subjected to an espionage almost Russian in character," declared Senator La Follette. "I have here a bundle of letters showing that my mail was opened in violation of the law and rifled by some one hostile to the purposes I had in making the investigation."

The charge was made in connection with the passage of the postal appropriation which would permit postal employees to join associations and petition congress for redress or grievance.

Senator La Follette said he had sent out 15,000 letters to postal employees asking for exact conditions in the service.

DEADLOCK HOLDS SUGAR TARIFF BILL

Washington, Aug. 12.—Failure of the sugar tariff bill and the excise tax measure was feared today by Democratic leaders of the house. Both bills are in conference. House conferees insist upon a sugar tariff reduction much below the basis the senate will accept.

There appears little hope of the deadlock being broken.

SLAIN MAN IDENTIFIED

Los Angeles, Aug. 12.—A man shot dead by the police in a street fight here yesterday was identified today as Lonzes Gutierrez, a Mexican reported to have been involved three years ago in a plot to blow up President Taft and President Diaz, when the met at El Paso.

Gutierrez was present at a street meeting when the police began chasing through the crowd after a Mexican who had been pointed out to them as a pickpocket. The man eluded the officers, and his friends and sympathizers gathered about him. Among them was Gutierrez, who the police say suddenly drew a revolver and was shot down before he could discharge it.

TYRUS COBB IS STABBED

Famous Detroit Ball Player Attacked by Armed Thugs

Syracuse, N. Y., Aug. 12.—"Ty" Cobb was attacked and stabbed in the back by three unidentified men in Detroit today while on his way to the train which was to bring him and the team here for an exhibition game this afternoon.

Cobb's agility saved him from possible death. His injuries are slight. Cobb was driving his automobile to the station accompanied by his wife, when three assailants appeared from behind a wooden building and ordered the car to stop. The men were partly intoxicated and when the machine came to a stop Cobb jumped out and began to argue with the men.

The trio then demanded money and made a lunge at Cobb. Cobb attacked them and then began a general fight. One man was knocked down with a blow on the chin and another then ran while the third grabbed Cobb around the neck. While the pair were struggling, the third pulled a knife and inflicted a wound in Cobb's back. Cobb finally shook off the assailant and regained his car.

Cobb was treated here on the arrival of the Detroit team. Cobb tried to keep the matter quiet and would not discuss it.

NEW YORK STOCK EXCHANGE

New York, Aug. 12.—Brilliant prospects held out by last week's crop report were made the basis of a rise in stocks. Trading was active and broad but market leaders were not

prominent. Canadians added to the recent gains, Canadian Pacific advanced to a new record price, and the southern roads were decidedly strong. Relative backwardness in Harri-mans partly was attributed to pending Panama canal legislation. Apart from General Chemical, which rose 10 points, specialties, including the cans, smelting, Colorado Fuel and American Tobacco, rose 1 to almost four points.

Bonds were irregular.

The market closed irregular.

In the final dealings prices fell back, the weakness of Reading causing recessions in Lehigh Valley, Great Northern, Canadian Pacific, Southern Railway and Erie.

PLUCK OF A WOMAN IN NEED

With but ten cents separating herself and three young children from hunger, Mrs. Mattie Coleman, a plucky young widow en route from Oklahoma to Roseburg, Oregon, was compelled to invite aid Sunday from the local authorities. The woman is making the trip in a wagon and already has consumed eleven weeks in the venture.

Finding that the children had been living principally on crackers for several days and that the grub-box contained nothing but some dry oatmeal, George D. Folkman and Rev. J. E. Carver busied themselves in the travelers' behalf. Folkman bought a Dutch oven and had the horses shod on the county commissioners' account and also purchased some groceries.

Rev. Carver phoned to some of the benevolently inclined women of Ogden with the result that further aid was forthcoming at once. Mrs. Lynch

sent a blanket and the Martha society gave some clothes for the children, which were much needed.

Efforts were made to persuade the woman that she had better abandon the overland trip, sell the outfit and proceed by rail to her destination. She was obdurate, however, and declared her ability to continue her course as mapped out to her to do mind. She has covered about half of her journey and will proceed northward and westward through Idaho by following the route of the Oregon Short Line. On reaching Huntington, Oregon, she will follow a course along the Columbia river to Portland and then southward to Roseburg. As the way is well settled in comparison with some portions of the route through amount of grit and determination which she seems to possess, she will succeed in the enterprise.

Mrs. Coleman's husband died in Oklahoma several months ago, leaving her alone among strangers with three young children. She has a brother near Roseburg, Oregon, who has taken up a homestead and, as he assured her, she could do likewise if she once reached there, she determined to do so. As she would need her horses in working her homestead, she packed a few belongings into the wagon together with her children—a little boy and two girls whose ages range between six and eleven years—and started on what might be termed by many a big undertaking.

She declares that she is not afraid of wild animals nor anything else except men and thus far she has fortunately escaped any unpleasantness from even the roughest source. The four way-finders have had several good meals since arriving in Ogden and, with refilled grub-box and rejuvenated spirits they departed this afternoon, convinced that there is still much good in the world and that adversity and good fortune still meet, betimes, on a western highway.

Of the 523,000 public school teachers in the United States more than four-fifths are women.

Men teachers in Schwartz-Sonderhausen, Germany, are required to ask permission of the school authorities

before they can marry, according to a new law. Warning is given that this permission will be denied in case of "obvious inability of the teacher to support a family."

MISSING MAN IS SEARCHED FOR

Although the county officers have conducted a thorough search, they have been unable to locate Charles Mitchell, who left the Dees hospital four days ago without the consent of County Physician J. W. Pidcock or Sheriff E. E. Harrison. The man was not wanted by the local authorities for any crime, but his mysterious conduct led them to believe that he might be wanted in some other locality.

Mitchell was found on the desert near Lakeside during the latter part of July. He was in a starving condition and apparently had suffered from thirst and heat prostration, as he was delirious for several days after his removal to the local hospital. When he did recover somewhat he refused to tell anything concerning himself. While convalescing Mitchell was permitted to lounge in the smoking room, but on the second day he was allowed his liberty he disappeared. Dr. Pidcock said he was still weak and should not have left the hospital for several days.

NOT SO STRANGE.
Isn't it strange that men seldom write poems on love after they are married?
"Oh! I don't know. I never heard of a man writing a poem on the ocean after an attack of seasickness."

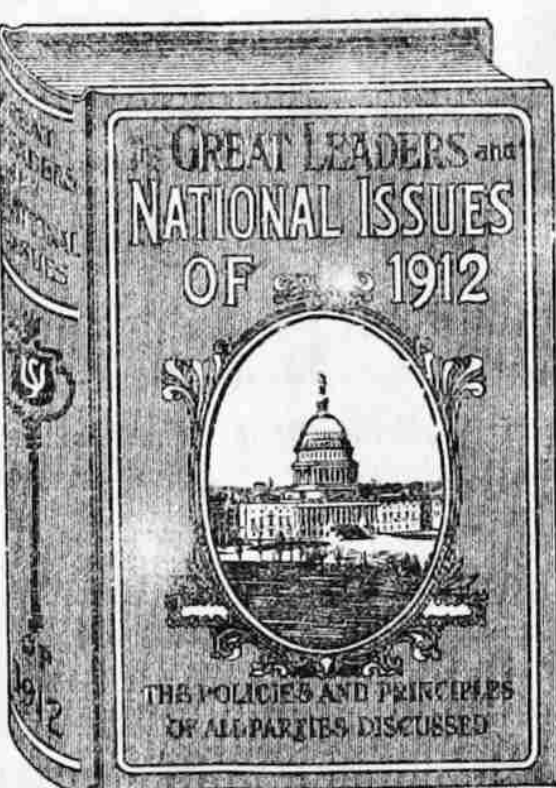

The fairy tales of Grim and of Hans Christian Andersen are excluded from the Austrian schools by a recent order, "because of their slight importance."

Esperanto is taught in some of the state-supported schools in England, France, and Germany.
